For Supervisor

GEORGE J. CHRISTOPHER

I hereby declare myself a candidate for the office of Supervisor for the City and County of San Francisco, State of California, to be voted for at the General Municipal Election to be held in the said City and County on the Sixth day of November, A. D. 1945, and declare the following to be true:

That I shall have been a resident of the City and County of San Francisco for a period of at least five years and an elector thereof for a period of at least one year immediately prior to the time for taking such office. That my name is George J. Christopher, My residence address is at No. 3031 - 25th Avenue, San Francisco. My business or occupation is Dairy Owner.

My qualifications for said office are as follows: Street car service must receive our immediate attention, for we cannot meet our post-war problems under present transportation conditions. The area between points in San Francisco warrants that we render fast and efficient service without raising fares to ten cents, and I would oppose a ten-cent fare. Our Municipal Government is a big business requiring constructive planning. Application of matured judgment, coupled with proper regard for the written and unwritten rights of labor, will assure our unprecedented progress. My candidacy for Supervisor is predicated in the belief that my training and business capacity can be devoted to this advantage.

Pursuant to the provisions of Section 175 of Charter of said City and County, I desire that the following designation "Dairy Owner" be placed immediately under my name as it will appear on all ballots at the General Municipal Election to be held November 6, 1945.

CHARTER AMENDMENT NO. 7

VACATION ALLOWANCES. Amending Section 151 of Charter to provide three weeks' vacation after five years' service, unused periods cumulative to six weeks.

CHARTER AMENDMENT NO. 7

VACATION ALLOWANCES

Describing and setting forth a proposal to the electors of the City and County of San Francisco to amend the Charter of said City and County by amending section 151 thereof to provide for an increase in vacation allowance for employees of the City and County of San Francisco and to permit accumulation thereof.

The Board of Supervisors of the City and County of San Francisco hereby submits to the electors of said City and County at the general municipal election to be held on the 6th day of November, 1945, a proposal to amend the Charter of said City and County by amending section 151, which shall read as follows:

VACATION ALLOWANCES

Section 151. The board of supervisors shall have power and it shall be its duty to fix by ordinance from time to time, as in this section provided, all salaries, wages and compensations of every kind and nature, except pension or retirement allowances, for the positions, or places of employment, of all officers and employees of all departments, offices, boards and commissions of the city and county in all cases where such compensations are paid by the city and county.

Compensations specified in this charter shall not be subject to the provisions of this section. Compensations of the teaching and other technical forces of the school department and employees of the Steinhart Aquarium and law library departments, construction employees engaged outside of the city and county, part-time employees and inmate and institutional help receiving less than fifty dollars (\$50) per month, shall be fixed by the department head in charge thereof, with the approval of the board or commission, if any, in charge of the department concerned and subject to the budget appropriation provisions of this charter; provided that part-time employees shall be recorded as such by a department head, only with the approval of the civil service commission and, when so recorded, shall be noted as part-time on payrolls, budget estimates, salary ordinance and similar documents.

In fixing schedules of compensation as in this section provided, the civil service commission shall prepare and submit to the board of supervisors and the board shall adopt a schedule of compensations which shall include all classifications, positions and places of employment the wages or salaries for which are subject to the provisions of this section; provided, that the civil service commission shall from time to time prepare and submit to the board of supervisors and the board shall adopt amendments to the schedule of compensations which are necessary to cover any new classifications added by the civil service commission. The compensations recommended by the civil service commission for such new classifications shall be consistent with the compensations currently fixed by the board of supervisors for comparable or nearest comparable classifications, and the compensations thus recommended for such new classifications shall be effective pending the adoption of an amendment of the current schedules of compensation recommended by the civil service commission and adopted by the board of Supervisors as herein provided, like compensation shall be paid for like service, based upon the classification as provided in section 141 of the charter, and for those classifications of employment in which the practice is customary, the proposed

schedules of compensation shall provide for minima, intermediate, and maxima salaries and for a method of advancing the salaries of employees from the minimum to the intermediate and to the maximum with due regard to seniority of service. The compensations fixed as herein provided shall be in accord with the generally prevailing rates of wages for like service and working conditions in private employment or in other comparable governmental organizations in this state; provided, that for specialized services which are peculiar to the municipal service and not duplicated elsewhere in private or other governmental organizations in this state, the commission shall recommend and the board of supervisors shall fix a compensation which shall be in accord with the wages paid in private employment or other governmental organizations in the state for the nearest comparable service and working conditions; and provided further that if the civil service commission determines on the basis of facts and data collected as hereinafter provided that the rates generally prevailing for a particular service in private employment or in other governmental organizations are inconsistent with the rates generally prevailing in private employment or other governmental organizations for services requiring generally comparable training and experience, the commission shall set forth these data in its official records and shall recommend and the board of supervisors shall fix a compensation for such service that shall be consistent with the compensations fixed by the board of supervisors for other services requiring generally comparable training and experience; and provided further that the minimum compensation fixed for full time employments subject to the civil service provisions of this charter shall be not less than \$106 per month.

The proposed schedules of compensation or any amendments thereto shall be recommended by the civil service commission solely on the basis of facts and data obtained in a comprehensive investigation and survey concerning wages paid in private employment for like service and working conditions or in other governmental organizations in this state. The commission shall set forth in the official records of its proceedings all of the data thus obtained and on the basis of such data the commission shall set forth in its official records an order making its findings as to what is the generally prevailing rate of pay for each class of employment in the municipal service as herein provided, and shall recommend a rate of pay for each such classification in accordance therewith. The proposed schedules of compensation recommended by the civil service commission shall be transmitted to the board of supervisors, together with a compilation of a summary of the data obtained and considered by the civil service commission and a comparison showing existing schedules. Before being presented to the board of supervisors for consideration, the proposed schedules and a comparison with existing schedules shall be published once a week for two weeks.

The board of supervisors may approve, amend or reject the schedule of compensations proposed by the civil service commission; provided, that before making any amendment thereto the data considered by the board of supervisors as warranting such amendment shall be transmitted to the civil service commission for review and analysis and the commission shall make a report thereon to the board of supervisors, together with a report as to what other changes, and the cost thereof such proposed amendment would require to maintain an equitable relationship with other rates in such schedule.

Where any compensation paid on January 1, 1931, is higher than the standard compensation fixed as provided in this section for such position or employment, said compensation shall be continued to the incumbent of such position as long as he legally holds said position, and department heads, in cooperation with the civil service commission where said commission has jurisdiction, shall continuously offer all possible opportunities to said incumbents to assume duties and responsibilities in higher classifications consistent with the higher rates of compensation hereby continued. The salaries and wages paid to employees whose compensations are subject to the provisions of this section shall be those fixed in the schedule of compensations adopted by the board of supervisors as herein provided and in accord with the provisions of the ordinance of the board of supervisors adopting the said schedule, and the compensations set forth

in the budget estimates, and the annual salary ordinance and appropriations therefor shall be in accord therewith.

Not later than January 15, 1944, and every five years thereafter and more often if in the judgment of the civil service commission or the board of supervisors economic conditions have changed to the extent that revision of existing schedules may be warranted in order to reflect current prevailing conditions, the civil service commission shall prepare and submit to the board of supervisors a schedule of compensations as in this section provided. A schedule of compensations or amendment thereto as provided herein which is adopted by the board of supervisors on or before April 1 of any year shall become effective at the beginning of the next succeeding fiscal year and a schedule of compensations or amendments thereto adopted by the board of supervisors after April 1 of any year shall not become effective until the beginning of the second succeeding fiscal year. The board of supervisors shall appropriate twelve thousand five hundred dollars (\$12,500) to the civil service commission to be known as the salary survey fund and to be used exclusively for defraying the cost of surveys of wages in private employment and in other governmental jurisdictions and making reports and recommendations thereon and publication thereof as herein provided. No expenditures shall be made therefrom except on authorization of board of supervisors. In the event of the expenditure of any of said funds, the board of supervisors in the next succeeding annual budget shall appropriate a sum sufficient to reimburse said salary survey fund.

Where compensations for services commonly paid on an hourly or a per diem basis are established on a weekly, semi-monthly or monthly salary basis for city and county service, such salary shall be based on the prevailing hourly or per diem rate, where this can be established, and the application thereto of the normal or average hours or days of actual working time, in the city and county service, including an allowance for annual vacation. Every person in the city and county service shall be allowed, after one year's service, a vacation with pay, annually, as long as he continues in his employment as follows: less than five years' service, two calendar weeks' vacation; five years' or more of service, three calendar weeks. The compensation paid for such vacation shall be the normal earnings of such person for the period of the vacation, exclusive of overtime earnings, based on his current rate of pay and current work schedule. Such vacation may be cumulative, provided that the unused cumulative vacation, together with the current vacation, may not exceed six weeks.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by amending section 172.1 thereof, relating to the Health Service System.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County at the general municipal election to be held therein on November 6, 1945, a proposal to amend the Charter of said City and County by amending section 172.1 thereof so that the same shall read as follows:

HEALTH SERVICE SYSTEM

Section 172.1:

Subdivision 1. A health service system for municipal employees is hereby established. Said system shall be administered by a board to be known as the health service board. The members of the system shall consist of all employees of the city and county who are members of the retirement system and all teachers and employees of the board of education who are members of said retirement system. Any employee who adheres to the faith or teachings of any recognized religious sect, denomination or organization and, in accordance with its creed, tenets or principles, depends for healing upon prayer in the practice of religion shall be exempted from the system upon filing annually with the health service board an affidavit stating such adherence and dependence and disclaiming any benefits under the system. The board shall have the power to exempt any person whose annual compensation exceeds forty-five hundred dollars (\$4,500) and any person who has otherwise provided for adequate medical care.

Subdivision 2. The health service board shall consist of nine members elected by the members of the system. The first members of the board shall classify themselves by lot so that three shall serve for one year, three for two years and three for three years from and after May 15, 1937. Thereafter the term of office shall be three years. The president of the board shall act as the appointing officer under the civil service provisions of this charter for the appointing, disciplining and removal of such employees as may be authorized by the board. Each member of the board shall give bond in the sum of one thousand dollars (\$1,000), the premium on which shall be paid out of the funds of the system. Vacancies shall be filled for the unexpired term by a majority vote of the remaining members of the board. Members of the board shall be nominated by a written nomination of twenty members filed with the registrar of voters not earlier than April 1st nor later than April 15th of each year. The registrar of voters shall prepare ballots and shall furnish the same to all members of the system between April 15th

and April 25th and shall receive the ballots between April 25th and May 7th and canvass and certify the result on May 8th. The registrar of Voters shall have power to make such regulations respecting the form, distribution and canvassing of the ballots as may be necessary to secure secrecy of the ballots and prevent fraud. The persons equal in number to the number to be elected who receive the greatest number of votes shall be declared elected. Not more than one employee of any one department or office may be a member of the board. For the purpose of the first election, all employees eligible for membership in the system shall be deemed members.

Subdivision 3. The board shall have power:

(a) By a two-thirds vote of the entire membership of the board to adopt a plan or plans for rendering medical care to members of the system, or for the indemnification of the cost of said care; or for obtaining and carrying insurance against such costs, provided:

1. No member of the system shall be required to accept the services or medical supplies of any physician, surgeon, person licensed to treat human diseases without the use of drugs, dentist, nurse, pharmacist or hospital selected by the board, but, subject to rules and regulations of the board, every member shall have the right to select, of his own choice, any duly licensed physician, surgeon, person licensed to treat human diseases without the use of drugs, dentist, nurse, pharmacist, hospital or other agency of medical care as herein defined, who or which will render the required services pursuant to said rules and regulations, and the board shall make provision for the exercise of such choice; and is hereby expressly prohibited from entering into any exclusive contract for the rendering of said services;

2. Any duly licensed physician, surgeon, person licensed to treat human diseases without the use of drugs, dentist, nurse, pharmacist, hospital or other agency of medical care shall have the right to furnish such services or medical supplies at uniform rates of compensation to be fixed by the board;

3. Such rates of compensation and any and all proposed contracts respecting the rendering of such services shall be reviewed by the retirement board of the city and county and shall not become effective unless and until approved by the retirement board. The retirement board may approve, refer to the health service board for further consideration, or disapprove any matter or proposal which is within its jurisdiction under the provisions of this section, and it shall act within sixty (60) days after any matter has been submitted to it; and failure of the retirement board to approve, refer or disapprove the same within said period shall constitute an approval.

4. In January of each year, at public hearings, the health service board shall review and determine the adequacy of medical care provided for members of the system and the adequacy of fee schedules and the compensation paid for all services rendered and it may make such revisions therein as it deems equitable. Any such determination or revision shall be subject to review by the retirement board upon an appeal taken within thirty (30) days thereafter by a written petition filed with the retirement board and signed by not less than fifteen per cent (15%) of the members of the system or by not less than fifteen per cent (15%) of those of any one of the following groups who have contracted to render services to the members of the system: Physicians and surgeons; persons licensed to treat human diseases without the use of drugs; dentists; nurses; pharmacists; hospitals; other agencies of medical care. A copy of such petition shall also be filed with the health service board at the same time. The retirement board may approve or disapprove such determination or revision of the health service board by a majority of its members or refer the same to the health service board for further consideration. Failure of the retirement board to approve, refer or disapprove such determination or revision within sixty (60) days after filing the petition shall constitute an approval.

5. The health service board shall receive, consider and, within sixty (60) days after receipt, act upon any matter pertaining to the administration, operation or conduct of the health service system submitted to it in writing by any member of the system or

any person who has contracted to render medical care to the members of the system.

6. The said retirement board is hereby authorized and empowered and it is hereby made its duty to exercise the powers and to perform the duties prescribed for it by this section.

(b) To put said plans into effect and to conduct and administer the same and, for all or any of said purposes, to contract therefor and use the funds of the system.

(c) To make rules and regulations for the transactions of its business, the granting of exemptions and the admission to the system of persons who are hereby made members thereof and such other officers and employees as may voluntarily become members of the system with the approval of the board.

(d) To appoint a medical director and such other employees as may be necessary. The compensation of the medical director shall be fixed by the board and he shall hold office at its pleasure. The employees, other than the medical director, shall be subject to the civil service and retirement provisions of the charter, and the provisions of Division IV of the Labor Code of the State of California, provided that all employees who are actually employed or who may be on military leave of absence from employment on the effective date of this amendment and who have been continuously employed for one year immediately preceding such date or such military leave of absence shall be continued in their respective positions and classifications as if appointed thereto after examination and certification from a civil service list of eligibles and shall thereafter be governed by and be subject to the civil service and retirement provisions of this charter, and the provisions of Division IV of the Labor Code of the State of California. Prior to July 1st in each year the health service board shall fix the compensation of its employees, which compensation shall be the same as the rates of compensation fixed by the board of supervisors, under the provisions of section 151 of this charter, for similar classifications and services in other city and county departments. The health service board shall submit to the board of supervisors prior to July 1st of each year a list of the positions established under the health service board and such positions and the compensation therefor shall be enumerated in the annual salary ordinance. Payrolls covering such positions shall be governed by section 150 of the charter.

(e) To make provisions for the participation in the benefits of the system by the dependents of members, retired municipal employees and temporary municipal employees, provided that such participation shall be without cost to the city and county.

Subdivision 4. The board shall determine and certify to the controller the amount to be paid monthly by the members of the system to a fund for the purposes of the system hereby created. The controller shall deduct said sums from the compensation of the members and shall deposit the same with the treasurer of the city and county to the credit and for the use of the system. Such deductions shall not be deemed to be a reduction of compensation under any provision of this charter. The board shall have control of the administration and investment of the funds, provided that all investments shall be of the character legal for insurance companies in California. Disbursements from the fund shall be made only upon audit by the controller and the controller shall have and exercise the accounting and auditing powers over the funds of the system which are vested in him by this charter with respect to all other municipal boards, officers and commissions.

Subdivision 5. The term "medical care" shall include the services of physicians, surgeons, nurses, persons licensed to treat human diseases without the use of drugs, hospitalization, medicines and appliances, and dental, optical and other medical treatments and services.

All acts performed and services rendered under the provisions of this section shall be performed in accordance with the provisions as to professional conduct prescribed by the statutes of the State of California regulating such professional conduct and services.

Medical care, as defined in this section, shall not be furnished or supplied to any member of the system by or in any of the public health and hospital facilities of the

city and county, except that emergency medical and hospital care may be rendered to any member of the system in the usual course of emergency health service.

Subdivision 6. Members of the system shall have and possess no claim or recourse against any of the funds of the municipality by virtue of the adoption or operation of any plan for rendering medical care, indemnifying costs of said care or carrying insurance against such costs, but the claim and recourse of any such member shall be limited solely to the funds of the system. All expenses of the system except for contributions to the retirement system and any payments made pursuant to the provisions of Division IV of the Labor Code of the State of California shall be borne exclusively by the funds of the system and the city and county shall not otherwise appropriate or contribute funds in any manner for the purposes of the system hereby established and provided.

SAN FRANCISCO WILL DO HER PART!

Under cloak of military security, San Francisco Airport has grown in size and significance during the war years until now it is one of the nation's leading airports.

ALREADY, more than five thousand people are employed there in **private industry**—drawing wages and salaries of more than fifteen million dollars a year. This does not include any part of military or naval operations. It refers **only to private industry**.

BUT THE AIRPORT IS NOW CROWDED TO CAPACITY! Facilities to meet the demands of new business must be provided NOW.

IF THIS IS NOT DONE, Los Angeles, Seattle, Portland and Tacoma will be waiting to romp away with air leadership, leaving San Francisco the dismal prospect of serving as a whistle-stop for commercial aviation.

OUR COMPETITIVE SISTER CITIES are ready with money and alluring contracts. We can do no less for ourselves and for our returning veterans than to meet these competitive terms. We have air leadership now.

LET'S KEEP IT!

LET US HAVE—

We must realize that the sudden end of the war has also put an end to post war planning. We are NOW in the post war period. NOW is the time—not to plan—but to PUT PLANS INTO EFFECT! It is time for action.

THE POST WAR ERA IS HERE! THE PLANS ARE READY! What we need NOW is the go-ahead signal from the people to carry into effect the pledges made to returning war veterans and the thousands of others who have served so faithfully on the production lines.

ON NOVEMBER 6th, the people will vote on Proposition No. 1 and Charter Amendment No. 2—the first a \$20,000,000 expansion program covering a 5-year construction period for San Francisco Airport—the second authorizing the City to lease airport lands to the highest bidder for terms up to 40 years to meet the competition of sister cities.

PASSAGE OF THESE TWO MEASURES will give San Francisco the air leadership that befits a world capital. It will provide permanent jobs for from 15,000 to 20,000 people. And it will provide an annual private industry payroll of more than \$50,000,000!

Supervisors

Committee Meeting Compensation

A "YES" vote on Charter Amendment No. 10 will correct an injustice to public-spirited citizens by partially compensating them for their devotion to vital civic affairs.

Follow the trend of other major California cities and assure San Francisco of continued leadership in municipal activities.

San Francisco is the industrial, financial and aeronautical capital of the vast Pacific Basin. Keep our city in this position by attracting competent citizens to public office.

Charter Amendment # 10

NOV 8 1945
VOTE YES ON 11

STANDARDIZATION OF SALARIES

The salaries of employees and most administrative officers of the city and county are standardized through application of a fair formula and procedure prescribed by the Charter. Compensations are based upon prevailing rates for comparable positions throughout California as determined by factual studies.

There are a few exceptions to this rule and it is the purpose of Charter Amendment 11 to correct these inconsistencies.

Proposed by Municipal Executive Employees Association in the interest of sound salary administration.

Submitted by unanimous vote of Board of Supervisors.

VOTE YES ON 11

(This argument in favor of Charter Amendment 11 was authorized by the Board of Supervisors.)

VOTE YES ON 12

Charter Amendment 12 will apply full salary standardization to all civil service officers of the City and County of San Francisco. At the present time there are five civil service positions not fully covered by salary standardization. This Amendment will correct these inconsistencies.

Salary standardization as defined and provided for in the Charter is "Compensation fixed in accord with **the generally prevailing rates of wages for like service and working conditions in private employment** or in other comparable governmental organizations in this state."

Unanimously approved by the Board of Supervisors.

Endorsed by The

Continue the Farmers' Free Market Vote "YES" On 16

For two years the Farmers' Free Market has demonstrated its value to California's fruit and vegetable growers and to San Francisco housewives.

Growers have obtained fair prices for food commodities formerly wasted. Housewives have bought farm-fresh foodstuffs at reasonable prices direct from the producer.

Under existing legislation the Farmers' Market must close six months after the official end of the war. If No. 16 is approved by the voters, the Board of Supervisors must act to continue the Market. VOTE "YES" on No. 16.

Handling only 2 to 7 per cent of the fresh fruits and vegetables coming into San Francisco, the Farmers' Market is not a substitute for the traditional wholesale-retail marketing system. It is not meant to be!

It is a safety valve—an additional outlet for crops—an additional source of food for the housewife. It is Free Enterprise; it strengthens the Competitive System.

The Farmers' Market is supported by fees collected from the growers. There is no charge against the taxpayers.

The Farmers' Market is under the same inspection to assure sanitation, quality standards and weights and measures as regular wholesale and retail establishments.

(Over)

Only bona fide growers may sell there... Peddlers are kept out.

San Francisco has built good will in rural California by maintaining this market.

Our city is one of the few cities in the United States which never before had a Farmers' Market.

Let's continue to be friendly with our farmer neighbors and helpful to our own consumers.

Continue the Farmers' Market
