My qualifications for said office are as follows: As a Union member holding withdrawal cards in three Locals, I sympathize with problems of labor, and being a Notary Public, a Realtor and an Insurance man gives me the necessary "know-how" of Business Administration. Common sense objectives I advocated last election: Lower property tax rate—"A-Penny-a-Ride" limited carfare entire length of Market (to spread parking facilities); restoration of Ferry Boats as auxiliary means of commutation; colorful annual S. F. County Fair, etc.—are still sound, still needed. "Remember This—You Will Never Miss" when you vote "Marty" for Supervisor. It is my ambition to serve you well.

Pursuant to the provisions of Section 175 of Charter of said City and County, I desire that the following designation "Notary Public" be placed immediately under my name as it will appear on all ballots at the General Municipal Election to be held November 6, 1951.

I hereby declare myself a candidate for the office of Supervisor for the City and County of San Francisco, State of California, to be voted for at the General Municipal Election to be held in the said City and County on November 6, 1951, and declare the following to be true:

That my name is Roy W. Mierly, Jr. My residence address is at No. 3 Vicksburg Street, San Francisco. My business or occupation is Reporter.

My qualifications for said office are as follows: Sincerity, honesty and singleness of purpose for a stable form of City Government. I believe we should have younger, and better qualified men and women in all elective offices. I feel that life time appointments should be abolished and limit the number of terms any elected official can serve, thus eliminating the acquisition of power in the hands of so few. Then, too, I believe that any person running for public office should make the duties of a public servant come first and his own business, personal affairs and all else be secondary or they should not accept the office.

Pursuant to the provisions of Section 175 of Charter of said City and County, I desire that the following designation "Reporter" be placed immediately under my name as it will appear on all ballots at the General Municipal Election to be held November 6, 1951.

## For Supervisor **GEORGE WALSH**

I hereby declare myself a candidate for the office of Supervisor for the City and County of San Francisco, State of California, to be voted for at the General Municipal Election to be held in the said City and County on November 6, 1951, and declare the following to be true:

That I shall have been a resident of the City and County of San Francisco for a period of at least five years and an elector thereof for a period of at least one year immediately prior to the time for taking such office. That my name is George Walsh. My residence address is at No. 742 Chenery Street, San Francisco. My business or occupation is Longshoreman.

My qualifications for said office are as follows: As a Trade Unionist, I know the problem of making the pay check provide for my family. I believe the responsibility of all elected officials is to protect the American family. I will do that by fighting for price and rent control and a workable FEP ordinance. I will fight to resist the present attacks on the Constitution and the Bill of Rights by power-hungry politicians. I will do it by speaking for Peace, for an end to the armaments race that can result only in total destruction. Peace is the best defense against atom bombs and high prices.

Pursuant to the provisions of Section 175 of Charter of said City and County, I desire that the following designation "Longshoreman" be placed immediately under my name as it will appear on all ballots at the General Municipal Election to be held November 6, 1951.

## ARGUMENT IN FAVOR OF PROPOSITION A

Vote "Yes" on Proposition "A"

### TAKE FIRE AND POLICE WAGES OFF THE BALLOT

PROPOSITION "A" is the result of many months of study and research by your firemen and policemen and representatives of large tax-paying, labor, and civic organizations, and is considered FAIR and EQUITABLE to both taxpayers and employees.

PROPOSITION "A" will provide an automatic upward or downward adjustment in wages based on the unbiased Cost of Living Index furnished by the United States Bureau of Labor Statistics as of March 15th of each year.

PROPOSITION "A" will limit the adjustments, upward or downward, to 10% annually.

PROPOSITION "A" will eliminate the outdated method of going on the ballot whenever an adjustment is warranted.

San Francisco demands and deserves competent policemen and firemen. PROPOSITION "A" will re-create the inducement to obtain proper personnel. WHY should your firemen and policemen be the only group of employees required to go on the ballot for wage adjustments?

PROPOSITION "A" applies only to the uniformed members of the Fire and Police Departments and has no effect on the manner of arriving at wage adjustments for any other group.

Wages of your policemen and firemen should not be a political issue.

## ARGUMENT AGAINST PROPOSITION A

### Vote "No" on Proposition "A"

INFLATIONARY!      COSTLY!      DANGEROUS PRECEDENT!

The San Francisco Municipal Conference is not opposed to reasonable increases for policemen and firemen, but is opposed to costly, unsound and dangerous Proposition "A." The formula used in this amendment

guarantees that the increase will be excessive. Why not let the people vote on a definite amount?

Proposition "A" is inflationary because it violates the national stabilization program. The Federal Economic Stabilization Agency issued Regulations Nos. 4 and 8, which ask cities and states to conform to the wage regulations for employees in private business. Employees of private concerns under cost-of-living plans which went into effect after January, 1951, are limited to increases of less than 3 per cent, according to the latest cost-of-living index (June 15). Policemen and firemen would get increases of over 10 per cent if this amendment is approved. They received an increase of 9.4 per cent on July 1 of this year! You are bound by these Federal rules; why should the city's policemen and firemen be given special treatment?

Proposition "A" would give San Francisco's policemen and firemen salaries higher than any being paid in the large cities in the country, and would keep them high, if the cost of living goes up.

This measure will cost \$1,959,330, according to the cost of living on June 15. This means an increase of 17.4 cents in the tax rate per \$100 of assessed value.

It sets a dangerous precedent, with which San Francisco cannot afford to experiment. If policemen and firemen receive these large, automatic increases (\$36 to \$67 per month according to the June index) thousands of other city employees would demand the same treatment, and who could blame them?

The U. S. Bureau of Labor Statistics index is compiled in Washington, D. C., and there is no guarantee that it will be maintained in its present form in the future. There have been several changes, the last one having been made only recently.

Don't endorse this blank check; vote "No" on "A"!

The following members of the San Francisco Municipal Conference oppose this measure:

Building Owners & Managers  
Associations,  
California Northern Hotel  
Association,  
Down Town Association,

San Francisco Chamber of  
Commerce,  
San Francisco Real Estate  
Board,

## CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183

### PROPOSITION A

The United States Bureau of Labor Statistics maintains and publishes a Consumers Price Index.

This amendment provides for an increase or decrease in the pay of policemen and firemen for each point of change in this index on March 15, 1952, as compared with base price index of 170 which is established by this amendment, and thereafter on each March 15th as compared with the price index of the previous March 15th, provided no change shall be made unless the price index changes by three points or more, and provided further that no change shall result in an increase or decrease of more than ten per cent after the first year of change.

Each point of change is estimated to amount to \$108,851.68 and based upon the current assessment this is equal to nine and seven-tenths mills (97/100 of 1c) in the tax rate.

HARRY D. ROSS, Controller,  
City and County of San Francisco.

## PROPOSITION B

**Amends Charter Section 7; provides city employees working outside city may reside outside city; transfers to retirement board, administration of permission to employees to live outside city for health reasons.**

## PROPOSITION B

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Section 7 thereof, relating to residential qualifications of officers and employees.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1951, a proposal to amend the charter of said city and county by amending Section 7 thereof so that the same shall read as follows:

Note: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses)).

### QUALIFICATIONS OF OFFICERS AND EMPLOYEES

Section 7. No person shall be a candidate for any elective office, nor shall be appointed as a member of any board or commission or as

an officer of the city and county unless he shall have been a resident of the city and county for a period of at least five years and an elector thereof for at least one year immediately prior to the time of his taking office, unless otherwise specifically provided in this charter. All employees of the city and county shall be citizens and shall have been residents thereof, for at least one year prior to the appointment, unless otherwise specifically provided in this charter, and members of the fire and police departments shall be citizens and shall have been residents of the city and county for at least five years next preceding appointment, and every elected officer, member of any board or commission and employee, including members of the fire and police departments, shall continue to be a resident of the city and county during incumbency of office or employment, and upon ceasing to be such resident, shall be removed from office or employment; provided that where competent citizens who are residents of the city and county cannot be secured to fill positions outside of the city and county, then non-resident citizens may be appointed to fill such positions; provided, further, that employees who at the time of original appointment to positions in city and county service were or at such time are residents of the city and county, and who now or at any time occupy positions the usual and major duties of which require their presence daily at places which are ((more than fifty miles distant from)) outside the city and county, may establish and continue residence in any county convenient to such place of duty for the duration of their employment at any such places, and shall have all rights in relation to any such employment or to any other position in any department of the city and county, including but not restricted to all rights respecting participation in examinations for appointment to, or occupancy of such other positions, to the same extent as though they had continued to be residents of the city and county during all of such time; and provided, also, that positions requiring expert or technical training may, on the recommendation of the department head and the mayor, and with the approval of the Civil Service Commission and the Board of Supervisors, be exempted from the requirements of this section. A "resident" within the intent and purpose of this section, means one who actually lives within the city and county and maintains an abode therein, where such resident with his family, if any, customarily spends the night, provided, however, that residence outside the confines of the city and county for a period not to exceed three months in any calendar year, or absence of a resident from the city and county upon any bona fide journey, whether for business or pleasure and for whatever length of time, or absence of a resident while in the performance of any duties as an elected or appointed official or employee of the State of California or the Government of the United States, shall not be within the contemplation of this section. ((; provided, however, that any officer or employee of the city and county may live outside the City and County of San Francisco upon the authorization of the director of health, filed in the

office of the Civil Service Commission, and granted on account of the ill health of said officer or employee or the ill health of a member of the immediate family of said officer or employee.) Any officer or employee except elected officers of the city and county, however, may live outside the City and County of San Francisco upon authorization granted exclusively by the retirement board, if on the basis of medical and any other available information, that board believes that such authorization should be granted on account of the ill health of said officer or employee or the ill health of a member of the immediate family of said officer or employee. Such authorization and any modification or termination thereof shall be filed in the office of the civil service commission. Officers and employees shall make application for such authorization directly to the retirement board, on forms provided by the retirement board, without any requirement of prior application to or permission of any officer, board or commission. At the same time they shall file a copy of such application with their respective department heads, who shall have ten days thereafter in which to file any objections thereto with the retirement board. The retirement board may require medical examinations and such information in regard to any such application as it shall deem reasonable. Such authorization shall be terminated after sixty days notice, by the retirement board when in its opinion the authorization no longer is justified; and the retirement board may at any time, and from time to time shall, require such medical examinations and information as it may deem reasonable to determine the continued existence of such justification. Non-compliance with requests of the retirement board or any physician designated by it, shall be good cause for denial or termination of such authorization.

The retirement board shall review, without unnecessary delay, all authorizations to live outside the City and County of San Francisco which have been granted by the Director of Public Health and which are now in effect. The board shall have the same powers in respect to such authorizations as are provided herein in respect to authorizations granted by it.

Ordered submitted: Board of Supervisors, San Francisco, August 20, 1951.

Ayes: Supervisors Arnold, Christopher, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan.

Noes: Supervisor Fazackerley.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

JOHN R. McGRATH,  
Clerk.

## PROPOSITION C

**Amends Charter Section 149; relates to temporary non-civil service or emergency appointments to city employment when no list of eligibles exists or immediate service is required pending appointment from list.**

### PROPOSITION C

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Section 149 thereof, relating to emergency appointments.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1951, a proposal to amend the charter of said city and county by amending Section 149 thereof so that the same shall read as follows:

Note: Additions or substitutions are indicated by **bold-face type**; deletions are indicated by ((double parentheses)).

#### EMERGENCY APPOINTMENTS

Section 149. When no list of eligibles ((is available)) exists for a position in the class requisitioned by the appointing officer, or if a list exists but immediate service in the position is required by the appointing officer pending the time an eligible from a list is certified and reports for duty, as required under Sec. 148 of the Charter, the commission may certify for civil service temporary appointment an eligible from another list deemed by the commission to be suitable to temporarily provide the service desired; or may authorize the appointing officer to make a non-civil service or emergency appointment thereto for a period not exceeding ninety days and only until a regular appointment under the provisions of this charter can be made. ((If a non-civil service emergency appointment is authorized,)) if no list of eligibles exists for appointment to a permanent position in the class requested by the appointing officer, the commission shall immediately hold an examination and establish an eligible list for such position. If its annual appropriation is insufficient to meet the cost of said examination, it shall report to the mayor the estimated cost thereof, and the mayor shall request and the supervisors shall make supplemental appropriation therefor in the manner provided herein for supplemental appropriations. No person shall be compensated under any non-civil service or emergency appointment or appointments as authorized under the provisions of this paragraph for a period exceeding ninety days in any fiscal year, and no claim or warrant therefor shall be approved, allowed or paid for any compensation in excess of such ninety days.

Whenever the board of supervisors by a three-fourths vote of all its members shall declare that an unemployment emergency exists throughout the city and county because of extraordinary conditions due

to unemployment, and shall fix the period during which such unemployment emergency shall be officially recognized, the civil service commission shall then have power to exempt from civil service examinations during such emergency period all places of employment that may be created by special appropriation to relieve such unemployment emergency; provided, that no action shall be taken under the provisions of this paragraph that will adversely affect the rights of civil service eligibles for employment in the usual temporary and permanent positions that are provided for in the annual salary ordinance. The civil service commission shall adopt special rules for the government of appointments to the emergency positions that may be created under the authority of this paragraph.

Ordered submitted: Board of Supervisors, San Francisco, September 4, 1951.

Ayes: Supervisors Arnold, Fazackerley, Gallagher, Lewis, Mancuso, McMurray, Mead, John J. Sullivan.

Noes: Supervisors Christopher, MacPhee, J. Joseph Sullivan.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

JOHN R. McGRATH,  
Clerk.

## ARGUMENT IN FAVOR OF PROPOSITION C

### Vote "Yes" on Proposition "C"

This proposed amendment is necessary to re-establish legal provision for temporary non-civil service appointment with the approval of the Civil Service Commission to serve until the proper civil service eligible is appointed and is available for duty if immediate service in the position is required.

Time is required to process the requisitioning and appointment of persons qualified for municipal employment through civil service competitive examinations. Furthermore, when the civil service eligible accepts appointment he may be required to delay assuming his municipal duties until he gives reasonable notice to his present employer of his intention to leave. In many cases however immediate service is required in the municipal position in order to maintain normal operations of the municipal government without interruption or disruption. Provisions must therefore be made in such cases for immediate service in the position until the proper civil service eligible reports for duty.

City departments have always understood that such authority existed in the present Section 149 of the Charter and these temporary appointments have been authorized by the Civil Service Commission when in the judgment of the Commission and the respective appointing officers the best interests of the service necessitated such appointments. It is reported that the Board of Freeholders which drafted the present Charter intended to establish such authority. However, in recent litigation the Municipal Court has held that such authority does not now exist.

Proposition "C" merely re-establishes the provisions which the Freeholders originally intended and which are necessary to assure orderly, efficient and economical operation of the departments of the municipal government. Without these necessary provisions the Civil Service Commission states that the services of the municipal government will be

impaired, additional payroll costs will accrue by reason of overtime service at premium rates of pay, and demands for additional employments will tend to increase.

### **ARGUMENT AGAINST PROPOSITION C**

**NO on "C"**

**NO on "C"**

**NO on "C"**

The present provisions of the Charter adequately cover any actual emergency that might arise in city employment in which immediate service is required in departments. There is no necessity for a change.

This amendment is an insidious attempt on the part of the perpetrators of this legislation to nullify the decision of Judge Alvin Weinberger which upheld the present provisions of Section 149, thus protecting civil service employees, and prospective civil service employees whose names appear on legitimate civil service lists.

If adopted, this proposal will authorize department heads to employ persons of their own choice in temporary positions in city jobs, even though there are in existence established lists, with qualified persons available.

This violates every precept of Civil Service, and is contrary to proper administration, besides nullifying the mandate of the People of San Francisco who so forcefully placed Civil Service in our Charter in preference to the Despised Spoils System.

Should this hideous amendment pass, payrolls can be padded with political hangers-on, lacking physical, mental and moral qualifications required by our charter.

The Politicians want this amendment so they can place their political stooges in city jobs. The result can only be incompetence and higher taxes.

Save San Francisco from the Spoils System.

A "No" vote on proposition "C" is requested by San Francisco City and County Employees Local 747, Civil Service Building Maintenance Union Local 66A, Hospital and Institutional Workers Union Local 250 (all city employee unions interested in the preservation of honest civil service).

#### SCHOOLS (Continued)

#### SUPERINTENDENT OF SCHOOLS

Section 136. The superintendent of schools shall be the executive officer of the board of education. He shall be appointed by said board to serve for a term of four years and he shall receive an annual salary of \$10,000 unless an increase in said salary shall be fixed by the board of education and approved by the board of supervisors. ((The incumbent in the office of superintendent on the 1st day of July, 1942, shall continue to serve at the pleasure of the board.))

During his term of office the superintendent may be removed from his office, as in this section hereinafter provided, for misconduct or incompetency after charges setting forth the nature and character of said misconduct or incompetency are filed against the said superintendent. Said charges must be in writing and shall be signed by at least two members of the board of education. A copy of said charges, together with a notice of the time and place of the hearing on the same, shall within five days after the filing of the same be served upon the said superintendent.

The mailing of a copy of said charges, with notice of time and place of hearing on the same, by United States registered mail, with the proper amount of postage prepaid thereon, addressed to said superintendent at his last known place of residence, shall be deemed to be a service of said charges as provided for in this section. A public hearing on said charges shall be had by the board of education not less than ten, nor more than twenty, days after the filing of said charges, provided that full power and authority is hereby given to the board of education to continue said hearing from time to time not to exceed sixty days from the commencement thereof, provided that for good cause said board may grant a further continuance on said hearing. The superintendent shall have the right to answer said charges, to appear at the hearing thereof and to be represented by counsel thereat for the purpose of defending himself against said charges. Pending the determination of said charges, the superintendent may be suspended from his office by a majority vote of the board of education, and the board may appoint a qualified person to discharge the duties of said superintendent during the period of suspension. If the board of education after hearing said charges shall by a two-thirds vote of all the members, determine that said charges have been sustained, it may by the same vote remove said superintendent from his office. No member of the board shall be entitled to vote on the removal of said superintendent unless he or she has been present at the entire hearing of such charges, provided that any member of the board who has not been present may vote for the removal of the superintendent, if such member has read a transcript of all the testimony taken on said hearing during his absence therefrom, and shall file with the board an affidavit to this effect. If said charges are not sustained by a two-thirds vote of all the members of said board, or if after said charges are sustained, the superintendent is not removed from office as a result thereof, said superintendent shall be reinstated in his position and shall be allowed his salary for the time that he has been under suspension, together with the costs of defending himself against said charges, including a reasonable fee for his attorney to be fixed and allowed by the board. If the charges are sustained, and as a result thereof said superintendent is removed from office, no further salary shall be allowed to said superintendent from the date of his suspension. In the hearing and determination of said charges filed against said superintendent, the judgment of said board of education shall be final unless in determining the sufficiency of said charges said board of education commits a clear abuse of discretion.

The superintendent shall have the powers and duties specified by this charter for department heads, in addition to such powers and duties as are fixed by general law.

The positions of superintendent and ((deputy superintendent)) associate and assistant superintendents shall be held only by persons of expert or technical training, but shall not be subject to any provisions of this

charter prescribing a residence qualification for officers or appointees, provided however, that during their incumbency appointees to such positions shall reside in the city and county, and in case any appointee shall fail so to do, his appointment shall at once be revoked by the board.

The superintendent may appoint a confidential secretary who shall hold office at his pleasure.

Note: Additions or substitutions are indicated by **bold-face type**; deletions are indicated by ((double parentheses)).

#### CONTINUOUS SERVICE

Section 161. Continuous service shall be defined by the board of supervisors, but the absence prior to September 14, 1940, of any officer or employee of the city and county from service caused by reason of the service of such officer or employee in the military or naval forces of the United States in any war in which the United States has engaged, shall not be deemed to be absence from service for the purposes of the retirement system and such officer or employee shall receive credit under the retirement system, for the period of such absence, in the same manner as if he had not been absent.

((Any contributing member of the retirement system who is absent after September 14, 1940, from the service of the city and county, by reason of service in the armed forces of the United States, or the State of California or service on ships operated by or for the United States government, and for such time thereafter as may be provided by rule of the civil service commission, but not to exceed two years after the proclamation of peace, except in case of disability incurred in the line of duty with said armed forces or on said ships when such disability extends beyond such period, or any service connected with the war effort for which leaves of absence shall be authorized pursuant to section 153 of the charter, or any such member who is absent after September 14, 1940, from the service of the city and county, by reason of an order of the government of the United States or the State of California, or by lawful order of any of the departments or offices of said governments, may elect to contribute to said retirement sysetm while serving in said forces or on said ships, and at times and

in a manner to be fixed by the retirement board, amounts equal to the contributions which he would have made from the beginning of said absence or from the date of said election, had he remained on duty in the position he occupied and at the compensation being earned by him immediately prior to the beginning of said absence. The city and county shall contribute to the retirement system on account of any member who exercises affirmatively the election provided herein, and on account of any non-contributing member who is absent by reason of service stated in this paragraph, in the same manner and amounts as if said member were not absent in said service. If the member's base pay in said service shall be less than one hundred dollars per month, city and county, in lieu of said member, shall contribute also said amount which the member otherwise would have been required to contribute under said election, and said contributions shall be administered as if made by said member.))

((It is the purpose of the paragraph next preceding, to place a member who is absent from the service of the city and county by reason of service as set forth in paragraph next preceding, and who contributes or for or on account of whom contributions are made as herein provided, in the same status under the retirement system, as that which he would have occupied had he remained on duty in the position he occupied immediately prior to the beginning of said absence and charter and ordinance provisions governing the retirement system, shall apply to said member with like effect as if he were not absent. If, however, a member who exercises affirmatively the election provided herein, shall default in any of the contributions due to the retirement system under said election, and if said contributions are not made for him, then he shall be considered absent from service during the period covered by said defaulted contributions, the same as if he had not exercised affirmatively said election, and he shall not receive credit as service for the city and county, for the period covered by said defaulted contributions; but the absence during said period of default shall not break the continuity of service required of such member to entitle him to a pension or retirement allowance, as provided under the retirement system.))

((Any member of the retirement system who is absent from the service of the city and county by reason of service set forth in the second paragraph of this section, and who does not affirmatively exercise election herein provided, shall not receive credit as service for the city and county, for the period of such absence, but the absence shall not break the continuity of service required of such member to entitle him to a pension or retirement allowance as provided under the retirement system.))

On and after September 14, 1940, a member is absent on military service when he is absent from city service by reason of (1) service with the armed forces of the United States or the State of California; (2) service on ships operated by or for the United States Government when such service is granted as "military leave" pursuant to section 153 of the charter; (3) service connected with the war effort for which leaves of absence shall be authorized pursuant to section 153 of the charter; or (4) any other service, under an order of the Government of the United States or the State of California, or by lawful order of any of the departments or offices of said governments, provided that such absence in any of such services occurs (1) either during a war involv-

ing the United States as a belligerent or in time of national emergency, declared by the President of the United States or by the Congress, and for such time thereafter as may be provided by rule of the civil service commission, but not to exceed two years after the proclamation of peace, except in case of disability incurred in line of duty with said armed forces or said ships when such disability extends beyond such period; or (2) in time of peace if he is drafted for such services by the United States Government or volunteers for such service while subject to such draft.

For the purposes of this section a war involving the United States as a belligerent exists: (a) whenever Congress has declared any war which has not been terminated by any truce, treaty of peace, or otherwise; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

Section 161.1. Any member so absent on military service may contribute to the retirement system during such absence, at times and in the manner prescribed by the board, amounts equal to the contributions which would have been made by him to the system on the basis of his compensation earnable at the commencement of his absence, if he had remained in city service.

Any member who makes the contributions as provided in the preceding paragraph shall receive credit for the absence as service in the same manner as if he had not been absent. If, however, a member does not affirmatively exercise the option herein provided, or if he exercised it affirmatively and defaults in any of the contributions due to the retirement system under said election, and in either event if such contributions are not made for him, he shall be considered absent during the period for which no contributions are made, and he shall not receive credit as service for the city and county for such period; but the absence during such period shall not break the continuity of such service required of such member to entitle him to a retirement allowance, as provided under the retirement system.

Any member who was absent on military service and who did not make the contributions as provided in this section, and whose contributions are not paid for him by the city and county as provided herein, may make such contributions upon his return to city service at times and in the manner prescribed by the board. If he does so contribute, he shall receive credit for the absence as service in the same manner as if he had not been absent.

When a member makes the contributions as provided herein, the same contributions shall be made by the city and county in respect to such absence that would have been made if the member had not been absent on military service, except that such contributions shall be determined by the employer's rate of contribution in effect when such contributions are made, and on the basis of his compensation earnable at the commencement of his absence.

Section 161.2. Notwithstanding other provisions of this charter to the contrary, the city and county shall contribute for each member of

this system who was absent on military service after September 14, 1940, amounts equal to the contribution which would have been made by such member and the City and County of San Francisco on the basis of his compensation earnable at the commencement of his absence, provided that the member's base pay in such military service is less than \$100.00 per month, and provided, further, (1) that if the absence in military service was by reason of service in the armed forces of the United States; (2) that the absence began on or after June 25, 1950; and (3) that the member's base pay in such service was less than \$250.00 per month, the city and county shall pay the contributions which would have been made by both the member and the city and county on the basis of his compensation earnable at the commencement of his absence. Contributions made by the city and county, in lieu of contributions which otherwise would be required of the member, shall be administered as if made by said member as normal contributions. Any such member who exercises or did exercise the right to contribute to the system during the period of absence on military service, and whose contributions otherwise would be paid by the city and county under this section, shall have his contributions plus credited interest, refunded.

Any member may retire, regardless of age, after rendering twenty-five years of service in the aggregate, computed under Section 168.1.9, but in such event, his retirement allowance shall be such as can be provided at the age of retirement, by the actuarial value, at the age of retirement, of the retirement allowance to which he would be entitled at the date upon which he would qualify for retirement under the first sentence of this paragraph, deferred to that date. If, at the date of retirement for service, or retirement for disability resulting from an injury received in performance of duty, said

member has no wife, children or dependent parents, who would qualify for the continuance of the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or Section 168.1.3, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the Board of Supervisors to govern similar election by other members of the Retirement System, including the character and amount of such other benefits.

Section 168.1.5. Upon the death of a member after qualification for service retirement under Sections 166, 168 or 168.1.2, or after retirement for service or because of disability which resulted from injury received in, or illness caused by the performance of duty, and if death shall result from other cause than such injury or illness, one-half of his retirement allowance to which he would have been entitled if he had retired for service at the time of his death or one-half his retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife, except that if he was a member under Section 168.1 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness ((which was incurred in performance of duty and)) which results in death, prior to retirement, ((or if death does not result from such injury or illness,)) or unless she was married to the member at least one year prior to his retirement. The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section 168.1.7 in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age of eighteen, may make such election, and if there be no such children, the dependent parent or parents may make such election. Persons heretofore or hereafter retired under other charter sections, as members of the Police Department at

the time of retirement, shall be subject to the provisions of this section. With respect to members under Section 168.1, "Qualified for service retirement", "Qualification for service retirement" or "Qualified as to age and service for retirement", as used in this section and other sections to which persons who are members under Section 168.1 are subject, shall mean completion of thirty years of service regardless of age, or twenty-five years of service and attainment of age fifty-five, said service to be computed under Section 168.1.9.

Section 168.1.5.1. Every allowance based on the average monthly compensation earnable by the member during the three or ten years prior to retirement or death, and payable for time commencing on the effective date of this section, to or on account of persons who were retired or who died prior to January 1, 1951, as members of the Police Department, shall be adjusted to the amount it would be if it had been based on the monthly compensation fixed in Section 35.5 of the Charter as of July 1, 1951, for the rank of Police Officer in the respective years of service, regardless of the rank or position the member held in the Department prior to his retirement, or death before retirement. Every service retirement allowance under Section 168, which is included in the sentence next preceding, shall be adjusted to what it would have been, if prior to optional modification, the allowance had been fifty per cent of said monthly compensation. Allowances payable under Sections 168.1.3, 168.1.4, or 168.3 to or on account of persons who were retired for disability or died prior to January 1, 1951, on and after the date such persons would have qualified for service retirement, shall be calculated as provided in said Sections 168.1.3, 168.1.4, or 168.3, respectively. The provisions of Section 168.1.5 with respect to continuance of one-half of retirement allowance upon deaths after retirement, shall be applied from the effective date of this section as if they were effective on November 2, 1948. This section does not authorize any decrease in any allowance from the amount being paid at said effective date, nor does this section give any retired member, or any beneficiary of such member, or his successors in interest, any claim against the city and county for any increase in any allowance paid or payable for the time prior to its effective date. Adjustment in reserves under allowances which are changed according to this section, shall be made on the basis of current interest rate and mortality tables.

The increase in the retirement allowance shall be apportioned according to service rendered by the member in the same manner that the allowance prior to increase was apportioned. Contributions to the retirement system, necessary for the payment of the increase of the portion of the retirement allowances which is paid from reserves held by the retirement system, shall be provided from the reserves held by the retirement system on account of members under Section 168.1, the necessary amount being transferred upon said effective date, from said reserves to the reserves held by the retirement system to meet the obligations on account of benefits that have been granted and on account of prior service of members. The contribution being required of the city and county currently, as a percentage of salaries of persons who are members under Section 168.1, shall be increased to a percentage determined by the actuary as necessary to replace the reserves so transferred. Contributions to the retirement system necessary for the payment of said increases with reference to current and prior service portions of the allowances which are not paid from reserves held by the retirement system, shall be paid to the system by the city and county by annual appropriations,

provided that such appropriation for any year shall not be less than the amount disbursed during that year on account of said increases.

Section 168.1.7. If a member of the Police Department shall die, before retirement, from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under Section 168.1.4 or 168.1.5 preceding, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the Board of Supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, the sum of five hundred dollars shall be paid to his estate or designated beneficiary in the manner and subject to the conditions prescribed by the Board of Supervisors for the payment of a similar benefit upon the death of other retired members.

Section 168.1.16. Added new Section 168.1.5.1, and amended Sections 168.1.2, 168.1.5 and 168.1.7, contained in the propositions therefor submitted to the electorate on November 6, 1951, shall take effect on the first day of the month next following their ratification by the state legislature.

Section 168.1.17. Any section or part of any section in this charter, insofar as it should conflict with new Section 168.1.5.1, or amended Sections 168.1.2, 168.1.5, and 168.1.7, or with any part thereof, shall be superseded by the contents of said sections: In the event that any word, phrase, clause, or section of these sections, shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

Ordered submitted: Board of Supervisors, San Francisco, August 13, 1951.

Ayes: Supervisors Arnold, Christopher, Fazackerley, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

Clerk.

## ARGUMENT IN FAVOR OF PROPOSITION I

Vote "Yes" on Proposition "I"

### CORRECTS A GROSS INJUSTICE:

A "YES" vote on Proposition "I" will correct a gross injustice to a small group of retired city employees (Police Officers) who served long years of faithful service (in many cases more than 40 years) and who have been retired for several years. These long-time city employees contributed to the Retirement Fund over a long period of time, but the amount of their retirement allowance was frozen because of a technicality before inflation set in to raise havoc with the general standard of living.

Instead of providing a decent and honorable retirement allowance as the reward for faithful service, these few retired employees and their families have been reduced to a subsistence level—despite their long years of service and their own contributions to the Retirement Fund.

### "FAIR PLAY" IS A SAN FRANCISCO TRADITION:

A "YES" VOTE IS A VOTE FOR FAIR PLAY which has been a

tradition in the relationship between San Francisco's citizens and her employees.

**"YES" VOTE RECOMMENDED BY TAXPAYER GROUPS:**

A "YES" vote has been heartily recommended by many representative taxpayer and business groups as "essentially fair."

This argument is sponsored by the San Francisco Veteran Police Officers Association, Inc., a voluntary, non-profit association of retired police officers.

**CONTROLLER'S STATEMENT PURSUANT TO CHARTER  
SECTION 183**

**PROPOSITION I**

The total estimated annual increase in cost if this amendment should be approved, based on report of the San Francisco Employees' Retirement System, will be \$209,325.99 (assuming liquidation on non-reserve items over a period of fifteen years). Based upon the current assessment roll this will amount to an increase of one and nine-tenths cents in the tax rate.

**PROPOSITION J**

**Adds Charter Section 158.2; provides for Director of Public Health minimum retirement allowance of \$500 monthly after attaining age 65 with 20 years' service; terminates contributions at age 65; makes retirement compulsory at age 70.**

**PROPOSITION J**

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of the city and county by adding Section 158.2 thereto, relating to the retirement allowance of the Director of Public Health of the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1951, a proposal to amend the charter of said city and county by adding Section 158.2 thereto, reading as follows:

## RETIREMENT OF DIRECTOR OF PUBLIC HEALTH

Section 158.2. Notwithstanding the provisions of any other section of this charter, the Director of Public Health shall receive a minimum retirement allowance of five hundred dollars (\$500.00) per month. Contributions required to provide the payment of the benefits under this section, not provided by the member's contributions, shall be paid to the Retirement System by the City and County of San Francisco. Said Director of Public Health shall only be eligible for this retirement allowance after a minimum of twenty (20) years' service and only after having attained the age of sixty-five (65), at which age retirement shall be optional. No further payments by said Director of Public Health shall be required after attaining the age of sixty-five (65), and it is further provided that retirement of said Director of Public Health shall be compulsory at age of seventy (70).

Ordered submitted: Board of Supervisors, San Francisco, July 2, 1951.

Ayes: Supervisors Christopher, Gallagher, Halley, Lewis, Mancuso, McMurray, Mead, John J. Sullivan.

Noes: Supervisors Fazackerley, MacPhee.

Absent: Supervisor J. Joseph Sullivan.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

Clerk.

## ARGUMENT IN FAVOR OF PROPOSITION J

### Vote "Yes" on Proposition "J"

The Director of Public Health occupies a position of equal importance with that of the Police and Fire Chiefs in guarding the safety of the citizens of San Francisco. However, at present there is no provision in our charter for a retirement pension for the head of the Health Department commensurate with that now provided for retiring Police and Fire Chiefs.

The proposal of a \$500 per month pension for the office of Director of Public Health after twenty years' service in the city government is a measure that will guarantee continuance of the exceptionally high standards and services of public health which have prevailed in San Francisco during the past twenty years. Such security will be an inducement to attract well qualified men to the position of Director of Public Health at any time that it may be vacant in the future. The field of qualified individuals in the United States is limited and presently those who might be persuaded to fill the position are well established in positions paying higher salaries and having adequate pension security. In seeking a man of optimum age for a Director of Public Health who has the desirable qualifications, an established pension of \$500 will enable those responsible for his appointment to emphasize the security offered.

The passage of this measure does not mean an outright grant of \$500 per month by the city to a retiring Director of Public Health. The holder of this office will have contributed over a period of twenty years as substantial a sum of money as any other city employee who is a member of the Retirement System.

Under our present and obviously future conditions, with so much talk of atomic, chemical and biological warfare, especially the latter, a city as large as San Francisco, which is situated in such a vulnerable geographical location, cannot afford to have anyone as its Director of Public Health who has not earned the highest recognition in the field of public health.

The members of the San Francisco Medical Society are fully cognizant of the importance of this charter amendment and urge its passage.

This argument is sponsored by the San Francisco Medical Society.

GARNETT CHENEY, M.D.,  
President.

On September 24, 1951, the foregoing argument was approved by the Board of Supervisors and authorized for inclusion in the election pamphlet for November 6, 1951, by the following vote:

## ARGUMENT AGAINST PROPOSITION J

### Vote "No" on Proposition "J"

Vote "NO" on Proposition "J" which gives the Health Director an extra pension of \$322.06 per month without any contribution by him. This proposition violates every principle of our City pension system and is special legislation for one man.

The voters rejected this pension grab in 1949 and they should do it again.

The Health Director receives a salary of \$15,000 a year from the city—why should the taxpayers now be asked to pay him \$322.06 per month toward a \$500 pension? If this proposition is approved, then all other highly paid city officials will want the same exorbitant pension with "YOU" paying the bill.

Faulty language of this proposition possibly limits this pension to the present Director of Public Health.

Defeat this special legislation again!!! Vote "NO" on "J."

THE SAN FRANCISCO MUNICIPAL CONFERENCE,  
J. ARTHUR YOUNGER, Chairman.

## CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183

### PROPOSITION J

Based on report of the San Francisco Employees' Retirement System, assuming retirement after twenty years of service at age 65, the maximum cost is estimated to be \$38,867.81. Based on the current assessment roll this will amount to an increase of three and one-half mills in the tax rate.

For each year the Director continues in service beyond the age of 65, thereafter the city's liability would be diminished accordingly.

HARRY D. ROSS, Controller,  
City and County of San Francisco.

## PROPOSITION K

**Adds Charter Section 158.3; provides for inclusion of certain employees and attaches of Superior and Municipal Courts in City and County Employees' Retirement System under charter section 165.2 relating to miscellaneous employees.**

### PROPOSITION K

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding Section 158.3 thereto, relating to inclusion in the Retirement System of employees and attaches of the Superior and Municipal Courts in and for the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1951, a proposal to amend the charter of said city and county by adding Section 158.3 thereto, reading as follows:

#### RETIREMENT—COURT EMPLOYEES AND ATTACHES

Section 158.3. Employees and attaches of the Superior or Municipal Court, including persons performing duties now performed under the titles of commissioners, phonographic reporters who are paid compensation on a monthly or per diem basis, by the city and county, secretaries, stenographers, investigators, messengers and other employees of the Superior and Municipal Courts, in and for the City and County of San Francisco, shall be members of the San Francisco City and County Employees' Retirement System under Section 165.2, and shall be subject to all of the conditions applying to other members under that section, except as herein otherwise provided.

Service rendered to the said Superior or Municipal Court in and for the city and county, other than as a phonographic reporter, by persons prior to becoming members under this section on the effective date of this section, hereby declared to be the first day of the month next following its ratification by the Legislature, shall be credited under the retirement system to such persons, provided that it would have qualified for credit when rendered, if said persons had been subject then, as they will be under this section, to the provisions of Section 165.2 of this charter and of the ordinances and provisions of the Municipal Code of the City and County of San Francisco relating to retirement of members under said section.

Service rendered to said Superior Court on and after September 15,

1945, or to said Municipal Court on and after September 1, 1947, by phonographic reporters prior to becoming members under this section on the effective date of this amendment shall be credited under the retirement system to such persons. Said service, rendered prior to becoming a member under this section on the effective date of this section, shall only be credited to each of such persons if he elect, by written notice, on a form provided by the retirement system, filed in the office of the retirement board of said system prior to July 1, 1952, to receive credit for all or any part of said service, and to pay into the retirement fund, at times and in the manner hereinafter provided, the following amounts: (1) an amount equal to the normal contributions he would have contributed, had he been a member of the retirement system under Section 165.2, during the time for which he has elected to receive credit for service, on the basis of compensation paid to him by the city and county on account of said service, and (2) an amount equal to the interest which would have been credited to his account on account of such contributions from the date upon which they would have been made, to the date of payment of such contributions to the retirement system. However, a member shall not receive credit for any portion of such service rendered prior to April 1, 1922, unless he has elected to receive credit for, and has paid into the retirement fund such amounts with respect to, all of said service rendered after March 31, 1922. Such amounts shall be paid into the retirement fund by lump sum payment, or pay roll deductions or other installments, over a period not exceeding thirty-six months from July 1, 1952, provided that any balance remaining unpaid at his retirement shall become due and payable forthwith. Benefits, not provided by such amounts, granted to said persons on account of said service rendered prior to the effective date of membership under this section, shall be provided by contributions of the city and county. Such service shall include time during which such person was absent from a status included in the paragraph above by reason of service in the armed forces of the United States in any war in which the United States has engaged.

For the calculation of retirement benefits, the compensation of phonographic reporters of the Superior Court prior to September 15, 1945, and of the Municipal Courts prior to September 1, 1947, shall be deemed to have been at the rate of four hundred dollars per month.

Notwithstanding the foregoing provisions, any such employee or attache not already a member of the system, who is over the compulsory retirement age as provided in Section 165.2 on the effective date of this amendment, shall not become a member of the retirement system, unless he elect prior to July 1, 1952, on a form provided by the retirement system, to be a member of said system, and if he does not so elect, he shall not be a member of the retirement system, and shall not be prevented from continuing in such employment by reason of such provision.

Ordered submitted: Board of Supervisors, San Francisco, September 4, 1951.

Ayes: Supervisors Arnold, Christopher, Gallagher, Lewis, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan.

Noes: Supervisor Fazackerley.

Absent: Supervisor MacPhee.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

JOHN R. McGRATH,  
Clerk.

## ARGUMENT IN FAVOR OF PROPOSITION K

### Vote "Yes" on Proposition "K"

Proposed Charter Amendment "K", if adopted, will permit the court reporters of the Superior and the Municipal Courts and the employees of the Office of the Secretary of the Superior Court in and for the City and County of San Francisco, a group of 49 persons, to become members of the San Francisco Employees Retirement System. These persons are paid by the City and County of San Francisco, but at the present time are precluded from becoming members of said Retirement System or of any other similar group.

If permitted to enter said system under the proposed amendment, they will contribute to said system on the same basis as all other members thereof.

This argument is sponsored by the Superior and Municipal Court Associations.

A "Yes" vote on Proposition "K" is endorsed by the Judges of the Municipal Court; and by the Judges constituting the Legislative Committee of the Superior Court.

## CONTROLLER'S STATEMENT PURSUANT TO CHARTER SECTION 183

### PROPOSITION K

## PROPOSITION L

**Amends Charter Section 172, relating to disability benefits for bodily injury or illness suffered by members of fire and police departments because of performance of duty, and to service credit during disability.**

## PROPOSITION L

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Section 172 thereof, relating to compensation insurance payments to members of the fire and police departments.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1951, a proposal to amend the charter of said city and county by amending Section 172 thereof so that the same shall read as follows:

Note: Additions or substitutions are indicated by bold-face type; deletions are indicated by ((double parentheses)).

### COMPENSATION INSURANCE PAYMENTS

Section 172. The benefit provisions of the workmen's compensation ((insurance and safety law)) laws included in the Labor Code of the State of California, as they affect the benefits provided for or payable to or on account of officers and employees, including teachers of the city and county, shall be administered exclusively by the retirement board, provided that the retirement board shall determine whether the city and county, through the retirement system, shall assume the risks under the said law, in whole or in part, or whether it shall reinsure such risks, in whole or in part, with the state compensation insurance fund. Benefits under such risks as may be assumed by the city and county, and premiums under such risks as may be reinsured shall be paid by the retirement system, and an amount equal to the total of such benefits and premiums, as determined by the actuary for any fiscal year, including the deficit brought forward from previous years, shall be paid during such fiscal year to the retirement system by the city and county.

Every patrol special police officer, as referred to in section 35 of this charter shall be entitled, under this section, to the benefits of such compensation law, if injured while performing regular city and county police duties, which shall include only duties performed while preventing the commission of a crime, or while apprehending the person or persons committing such crime, and shall not include duties of any character performed for private employers either on or off the premises of such employers, provided that no payments shall be made under this paragraph in the event that the patrol special officer shall receive the benefits of such compensation law from any other source.

Whenever any member of the fire or police department, as defined in sections 171.1.1 and 168.1.1, respectively, is incapacitated for the per-

formance of his duties by reason of any bodily injury received in or illness caused by the performance of his duty, as determined by the retirement board, he shall become entitled, regardless of his period of service with the city and county, to disability benefits equal to and in lieu of his salary as fixed by the charter, while so disabled, for a period or periods not exceeding twelve months in the aggregate, with respect to any one injury or illness. Said disability benefit shall be reduced in the manner fixed by the board of supervisors by the amount of any benefits other than medical benefits payable to such person, under the Labor Code concurrently with said disability benefit, and because of the injury or illness resulting in said disability. Such disability benefits as are paid in the absence of payments of any benefits other than medical benefits under the workmen's compensation laws included in said Labor Code, shall be considered as in lieu of such benefits, payable to such person under the said Code concurrently with said disability benefits, and shall be in satisfaction and discharge of the obligations of the city and county to pay such benefits under the Labor Code. Medical treatment which may become necessary to relieve or cure said member from the effects of the injury or illness shall be furnished by the city and county, in the same manner that such treatment is furnished under said Labor Code, but without first requiring continuing awards of such treatment by the Industrial Accident Commission of the State of California, relating to impairments of permanent or of extended and uncertain duration. The provisions of this paragraph shall be administered exclusively by the retirement board, and the city and county shall pay to the retirement system during each fiscal year, an amount equal to the total disability benefits paid by said system during that year. A member of the fire or police department shall receive credit as service, under the retirement system, for time during which he is incapacitated for performance of duty and receives said disability benefit. Contributions for the retirement system shall be deducted from said benefits in the same manner as they would be deducted from salary paid to him, and the city and county shall contribute, in addition to its other contributions provided herein, to the retirement system on the basis of said benefits in the same manner as it would contribute on salary paid to said member.

Ordered submitted: Board of Supervisors, San Francisco, August 20, 1951.

Ayes: Supervisors Arnold, Christopher, Fazackerley, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan.

I hereby certify that the foregoing charter amendment was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

JOHN R. McGRATH,  
Clerk.

## **ARGUMENT IN FAVOR OF PROPOSITION L**

**Vote "Yes" on Proposition "L"**

### **PLACE ADMINISTRATION OF ALL DISABILITY CASES UNDER RETIREMENT SYSTEM**

This proposal places in the Charter, substantially the same benefits for Firemen and Policemen who suffer disability from bodily injuries or illness resulting from performance of duty, as they now receive under

Sick Leave Rules of the Fire and Police Commissions and under the State Labor Code.

The proposal provides that the disability benefits shall be in lieu of benefits under the Labor Code, so as to prevent double benefits, and provides also that the Firemen and Policemen shall receive credit under the Retirement System, as they now do under the sick leave rules, for the duration of such disability, but not to exceed one year.

The proposal also places the administration of the disability cases among Firemen and Policemen qualifying for benefits under this proposal, exclusively under the Retirement Board of the City and County Employees' Retirement System, which already administers all other industrial injuries among City and County employees. Heretofore, the Fire and Police Commissions have administered disability cases with respect to the disability benefits here provided.

## ARGUMENT IN FAVOR OF PROPOSITION M

### Vote "Yes" on Proposition "M"

After a three months' study, the Board of Supervisors last spring unanimously requested the Water Department to take steps to fluoridate one of San Francisco's five water districts. The Public Utilities Commission requested an enabling ordinance and appropriation of \$40,000 of Water Department funds. The Board approved the ordinance on first reading.

Minor opposition appeared on April 9, 1951, but, on April 16, the enabling ordinance was passed by a 9 to 2 vote. On April 17, the Water Department set August 1 as the starting date for fluoridation of the water supplies in the Sunset and Richmond districts. On April 20 Mission High PTA and other groups petitioned the Board to include other districts immediately.

On April 30 the Board postponed vote on the initial \$40,000. On May 7 a minority of the Board voted to place the question on the ballot and at the same time the Board voted \$40,000 to finance initial operation. On May 21 the Public Utilities Commission instructed the Water Department to go ahead with preliminary plans but to hold up fluoridation operations until the votes were counted.

The Citizens Committee for Fluoridation, representing a true cross section of professional, business, labor, civic and social organizations of San Francisco, urge you to vote "YES" on Proposition "M" for the following reasons:

1. Extensive research since 1916 has conclusively proved that scientifically controlled fluoridation prevents up to 60 per cent of the decay in children's teeth.

2. Twenty-one states are now carrying on a fluoridation program within their borders and eleven others have approved fluoridation and will start operations in the near future.

3. Fluoridation has no healing or curative powers. It is simply a preventative of dental cavities. Just as chlorine and other chemicals are injected into public water supplies as a sanitary measure to check and prevent waterborne diseases so fluoridation acts as an agent to check and reduce dental decay in children from birth until adult teeth are formed.

4. Fluoridation does not add taste, color, odor or hardness to water, nor has the use of fluoridated water had any known effects on industrial processes.

5. This Proposition deserves favorable treatment by voters at the polls. In all, introducing this safe chemical into drinking water results in no ill effects. Pain and expense are substantially reduced and dental health encouraged by the process. And the cost to the City of San Francisco is negligible,—less than ten cents per person per year.

6. Among those strongly urging the adoption of water fluoridation are these groups dedicated to the health and well-being of the community: San Francisco Dental Society, San Francisco Medical Society, San Francisco Department of Public Health, California Department of Public Health, California State Dental Association, California State Medical Association, American Dental Association, American Medical Association, the United States Public Health Service and scores of other civic, fraternal, labor, business and community organizations.

### ARGUMENT AGAINST PROPOSITION M

#### Vote "No" on Proposition "M"

San Francisco is fortunate in the purity of its water supply. Why tamper with it?

The issue in fluoridation is not whether fluorides will prevent tooth decay in children but whether we are to adulterate our water supply and

at the same time establish the regimentation of compulsory state medicine. Previous water policy has been directed to the protection of purity of the water, but fluoridation would add a chemical to the water for an entirely different purpose—the purpose of forced treatment of the human body.

If those in charge of our water system are required to put fluorides into the water, they will soon be pressured to approve introduction into the water of other materials for compulsory bodily treatment. The fluoridation bill at the 1951 session of our State Legislature, which was defeated, would have absolved water people from all liability for introducing into the public water supply for such purpose not only fluorides but any other materials approved by the State Department of Public Health.

Objections to the introduction of fluorides into the public water are made by many people who disagree with such mass bodily treatment without individual diagnosis and who believe it can be harmful to the health of adults.

V. O. Hurme, D.M.D., Director of Clinical Research, Forsyth Dental Infirmary for Children, Boston, has given warning of the need to consider the effect of fluorides on people with diseased kidneys and other disorders.

Consumers' Research, a nonprofit institution organized and operated to provide unbiased information on goods bought by ultimate consumers, advises in its Bulletin of August, 1951, that further study is required before fluoridation can be conclusively termed a sound and desirable measure.

Besides those who object to fluoridation of pure water because of differing medical practices there are those who object because of conflict with religious convictions. There would be no possible exemption for these people who object to medical treatment or for others who disagree with the fluoridation theory.

Let us not vote ourselves into compulsory state medicine, but for the welfare of all citizens may we continue to protect our fine Hetch Hetchy water from adulteration and leave each citizen free to choose his own preventive or curative remedies.

Vote "No" on Proposition "M" to protect individual freedom and the purity of our water.

The undersigned members of the Board of Supervisors of the City and County of San Francisco hereby submit to the qualified electors of the said City and County, at an election to be held therein November 6, 1951, the following Declaration of Policy upon the ballot at said election, so that the electors can express their preference for or against said Declaration voting "Yes" or "No" thereon, to-wit:

## ARGUMENT IN FAVOR OF PROPOSITION N

### Vote "Yes" on Proposition "N"

Vote "YES" ON PROPOSITION "N" to restore the right to the Board of Supervisors to fix minimum parking fines, which will aid law enforcement. This is necessary to curb the inconsiderate drivers who park in bus and loading zones and who endanger the lives of others by double parking.

You will be able to get to and from work faster if you vote "Yes" on Proposition "N".

Enforcement on "no stopping" streets has proved effective in reducing the number of parking violators and in speeding up rush-hour traffic. Many drivers, however, are defying the law and paying the one and two-dollar fines as a parking charge. These thoughtless individuals have no consideration for the public.

Motorists should vote "yes" on this proposition to stop illegal bus and loading zone parking and the dangerous practice of double parking. It will help to eliminate the selfish all-day parker.

A "Yes" vote on this proposition will not raise parking fines, but it will give the Board of Supervisors the right to fix minimum fines.

FOR LESS TRAFFIC CONGESTION, FOR MORE SAFETY AND FOR A FASTER TRIP TO AND FROM HOME . . . VOTE "YES" ON PROPOSITION "N".

## PROPOSITION O

**Ordinance submitted by Board of Supervisors amending ordinance adopted by the voters on May 2, 1935, in order to permit one man operation of certain single-ended streetcars.**

## PROPOSITION O

### ORDINANCE AMENDING ORDINANCE ADOPTED MAY 2, 1935, FOR THE REGULATION OF STREET RAILWAY CARS.

Ordinance amending the ordinance adopted by the electors on May 2, 1935, entitled "Providing for the Operation of Street Railway Cars by a Motorman and Conductor, Specifying the Entrance Age of Employees on Street Railways, and Providing a Penalty for Violations Hereof," by providing that the operation of single-ended street railway cars shall not be subject to the terms of this ordinance save for the age qualification set forth therein.

Be it ordained by the People of the City and County of San Francisco:

Section 1. The ordinance adopted by the electors on May 2, 1935, Bill No. 694, Ordinance No. 15.0917, entitled as recited above, is hereby amended to read as follows:

Note: Additions are indicated by bold-face type.

Section 1. Every street railway car, while carrying passengers in the City and County of San Francisco, shall be in charge of a motorman, and a conductor, and each of said employees must be an adult of not less than twenty-one (21) years of age, and no such street car shall be operated in said City and County of San Francisco while carrying passengers, unless the same is in charge of a motorman and conductor having the qualifications herein provided for, except that the operation of any single-ended President's Conference Car, otherwise known as a PCC street car, or similar type, acquired by the City and County of

San Francisco subsequent to the 1st day of July, 1951, or the operation of any street car remodeled or reconstructed by the San Francisco Municipal Railway subsequent to said date in such manner as to become a single-ended street car, shall not be subject to the terms of this ordinance save for the age qualification hereinabove set forth.

This ordinance shall not be repealed, modified or amended except by vote of the electorate.

Section 2. Any person, firm or corporation violating any provision of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined for each offense, not less than Fifty Dollars (\$50.00), nor more than Three Hundred Dollars (\$300.00), or by imprisonment for a term not exceeding six (6) months in the County Jail of the City and County of San Francisco, or by both such fine and imprisonment.

Resolved, That the foregoing ordinance be and the same is hereby submitted to the electors of the City and County of San Francisco for their approval or disapproval, at a general election to be held in said City and County on the 6th day of November, 1951, and the Registrar of Voters is hereby directed to submit said matter to said electors at said election to be held on said day.

Ordered submitted: Board of Supervisors, San Francisco, May 18, 1951.

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, Mead, J. Joseph Sullivan.

Noes: McMurray, John J. Sullivan.

I hereby certify that the foregoing ordinance was ordered submitted by the Board of Supervisors of the City and County of San Francisco.

JOHN R. McGRATH,  
Clerk of the Board.

## ARGUMENT IN FAVOR OF PROPOSITION O

### Vote "Yes" on Proposition "O"

Vote "YES" ON PROPOSITION "O" for greater safety. The modern, one-man-operated, single-end cars are safer than the old-style, two-man cars. Their record in many cities confirms this.

Vote "YES" ON PROPOSITION "O" and help prevent the waste of manpower on the Railway in this period of manpower shortages in vital war industries.

A "YES" VOTE ON PROPOSITION "O" may help avert a future fare increase. The Municipal Railway now requires over \$2,000,000 from taxes to pay operating and other expenses. You can cut this loss by an estimated \$800,000 if you vote "YES" ON "O".

Management has promised that no one will be forced out of a job. Replacements will be made gradually.

The two-man streetcar ordinance was passed in 1935 when there were four streetcar tracks on Market Street, twenty trolley lines operated vehicles. The unfortunate thing in all cases such as this is that

ated over these tracks and sixty streetcar lines operated in the city; there was also a great deal of unemployment.

Today motor and trolley buses have been substituted for all but six streetcar lines, two of the four tracks have been removed from Market Street and there is a manpower shortage.

Save the streetcars by voting "Yes" on Proposition "O". If you don't, the management will be forced to replace them with one-man operated buses.

San Francisco is the last remaining large city with old-style, two-man-operated streetcars.

Vote "YES" ON PROPOSITION "O" to give management the right to replace the old equipment on our streets with modern, one-man streetcars.

On September 24, 1951, the foregoing argument was ordered submitted by the Board of Supervisors and authorized for inclusion in the election pamphlet for November 6, 1951, by the following vote:

Ayes: Supervisors Arnold, Christopher, Fazackerley, Gallagher, Lewis, MacPhee, Mead, J. Joseph Sullivan.

Noes: Supervisor McMurray.

Absent: Supervisors Mancuso, John J. Sullivan.

JOHN R. McGRATH, Clerk  
Board of Supervisors

## ARGUMENT AGAINST PROPOSITION O

### FOR YOUR SAFETY and the SAFETY OF YOUR CHILDREN

#### Vote "No" on Proposition "O"

During recent years the City and County of San Francisco has spent millions of taxpayer dollars for advice from outside "experts" on City problems, including how to operate the Municipal Railway. The City Hall basement is full of such "expert" advice.

These "experts" now ask you to repeal the "two-man" operated streetcar ordinance so as to permit the use of only one man on all streamlined streetcars. In their ballot presentation the proponents of Proposition "O" intimidate you with the statement . . . "Vote Yes on Proposition "O". If you don't the management will be "forced to replace them (streetcars) with one-man operated buses". In other words, more stuffy, smelly buses. In 1947, the voters approved a \$20,000,000.00 bond issue for the purchase of fifty-five streamlined streetcars. Instead of streetcars, you were given buses. Again you are told in effect that "if you don't give us our way . . . we will take the streetcars off the tracks and give you buses anyway." But what they don't tell you is that to replace all these streetcars with buses will require another bond issue approximating \$12,000,000.00. Don't commit yourself to another bond issue.

Insofar as safety is concerned . . . the people of San Francisco know of their own knowledge from riding in "two-man" operated streetcars and in "one-man" operated buses and trolley coaches just which one gives the greater comfort, safety and protection. We don't need the "expert" to try to tell us that what we "need" is more crowded, stuffy one-man the "expert", while in San Francisco, rides in a comfortable automobile,

usually chauffeured, and it is safe to say that he does not have to encounter these over-crowded one-man operated buses during peak traffic hours.

It is also common knowledge that the safe operation of vehicles of transportation requires one operator at the front of the streetcar or bus or coach, and another competent person at the rear. Much has been said about the accident rate in San Francisco. We submit that it is elementary that the probability of accidents occurring is far greater when the vehicle of transportation is operated by only ONE man. Certainly the accident risk rises sharply when the lone operator of these vehicles . . . in addition to what should be his prime and sole responsibility of safety propelling the car, on the alert for pedestrians and other vehicles . . . must also care for the safety of his passengers while boarding and alighting, making change and accepting fares, presenting transfers, and answering the thousand and one customary questions continuously put to him. No "expert" advice need be sought to inform you that the majority of accidents are caused by operators of vehicles whose minds were preoccupied and diverted by such additional burdensome duties. Streetcars have a maximum capacity of 135 passengers . . . entirely too many precious lives to be entrusted to the care of only one man. In addition, "herding" all these people through one door, with its attendant confusion and delay, can only further slow the movement of passengers to and from their homes.

Let it be remembered that our crowded hospitals caring for the injured resulting from accidents presents a somewhat terrifying situation. The only way to prevent such death and injury from invading the homes of San Francisco is to insist that our public transportation vehicles be properly manned. The citizens of San Francisco certainly pay enough in taxes to provide good City government, including a comfortable, safe means of transportation. The voters will have to make a choice of retaining the safety standards they now have in the TWO-MAN operated streetcars or abandoning that sound standard and increase the hazards of accidents with its resultant death and injury. Don't be "penny wise and pound foolish". Your safety and the safety of your children come FIRST.
